## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of embodiment V (claims 15-25) in the reply filed on June 19, 2006, is acknowledged.

In addition to the election of embodiment V without traverse, the applicant argues that Claim 1 is generic to embodiments I-V and therefore requests further consideration of claims 1-6 and 12. The examiner considered the applicant's request. However, a further review of Claim 1 in view of embodiment V revealed that Claim 1 is not generic to invention V. Therefore, the examiner maintains his position of the last Office Action.

### *Claim Rejections - 35 USC § 101*

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 15-25 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. In claim 15, line 3, the applicant recites that the distal end portion of the irradiation apparatus "is inserted into a living body." One cannot positively recite/claim a portion of a human/living body.

Correction, such as -- is configured to be inserted into a living body-- is suggested.

Appropriate correction is required.
